PRODUCER

At Bellingham we believe that grapes should be allowed to speak for themselves, which is why we follow a minimal intervention approach, respecting the fruit all the way through wine preparation. To this end we combine time-honoured methods with calculated technological expertise to arrive at premium wines that serve as a showcase for our vibrant terroir.

VINEYARD INFORMATION

1983 single vineyard, east facing slope exposed to cool afternoon sea breezes from Table and False Bay.

VINIFICATION

Harvested at two ripening levels to add complexity. Hand-picked, larger portion of natural fermentation in barrel and Foudre. Cool climate fruit expression. The barrels and Foudre are individually cooled to the optimum fermentation temperature. This allows slower and longer fermentations that enhance fruit and integration between the wine and oak. After fermentation, the wine was left on its lees and batonnage monthly until blending and bottling
