blend information 100% Shiraz

about the harvest All grapes were hand-picked.

#### in the cellar

All grapes were hand picked and sorted twice before a pure yeast culture was inoculated. The juice was pumped over the skins 3-5 times per day for 5 days. Once fermentation was complete, the wine was drained of the primary lees and transferred to a resting tank. Malolactic fermentation and a brief settling period preceded the wine to a combination of 225 liter barrels of French and American oak types.
